EXPERIENCE/ PROJECTS

Shibli Hostel Website

- A website made for a boys hostel business using **HTML, CSS** and **JS**. [Site link](#)
- Used **bootstrap carousels** for displaying testimonials.
- And **netlify** for hosting the business website and **netlify forms** for the contact form.
- I am helping this hostel get students through this **SEO** optimised site.

Weather app

- Made a **web app** for displaying weather of specific locations entered by user. [Site link](#)
- Used **HTML, CSS** and **JS** and did Server side rendering using **Node.js/ Express.js**.
- And used **Fetch API** to fetch data from the OpenWeatherMap API.

Facebook clone

- Made this clone using **React**. It's a simple clone for login and signup. [Site link](#)
- Applied the concepts of **props, state** and **conditional rendering**.
- Used the **useState()** hook for managing state.
